# Advantech Control Cabinet PC

## Wide Range of Product Form-factors for Different Mounting Scenarios of Cabinet Applications

Advantech's UNO-1000/3000 series of Embedded Control Cabinet PCs are fanless with high performance, multiple extensions, and ruggedized chassis. With iDoor Technology which supports automation feature extensions such as Fieldbus communication, Wi-Fi/3G, Digital I/O and POE. Versatile Mounting space DIN-Rail Mount, Wall Mount, Enclosure Mount and Panel mount with easy installation indicated market segments. In terms of the type of mounting, with their Control Cabinet PC, they are suitable for IoT gateway, motion and vision applications.

### Features & Benefits

#### Dual Power Input

Dual power input with wide range operating voltage is a fail-safe mechanism to reduce working unit maintaining down time by alternative power input source. And remote power on assists working units go back online from outside of the cabinet.

#### Multiple Expansion

UNO supports latest range of expansion interfaces including PCIe for high density I/O, iDoor for fieldbus modules, PCI for motion cards with easy installation captive thumb screws.

#### Enclosure Mount (UNO-3400)

Compact outside heatsink mounts through a corresponding cut-out in the cabinet or enclosure panel which integrated seals represent high performance as IP67.

#### Dual iDoor Expansion

Advantech's iDoor technology provides simple, flexible, and reliable expansion in high density systems using versatile color identification and multiple functions.

#### Built-in Digital I/O

Built-in DI/DO for simple I/O control, status detection, lighting control and event triggering in order to save extra cost and devices.

#### Dual Digital Display

Flexible display options provide resolutions of up to 4K/2K and provide excellent image quality.

#### IEC-61010 certified

UNO-3382G/ 3384G are evaluated to the UL/ IEC-61010 standard and support book mounting methods which makes them suitable for installing in harsh industrial environments.

System Configuration

Real-time Response

System Recovery

## Easy Maintenance

### Captive Thumb Screw

Operators can work efficiently with captive thumb screws as a superior tool to strengthen swapping HDD, CFAST & PCI/PCland for maintaining storage and expansion devices.

### Hot-swap RTC Battery

Removable RTC battery saves time and cost by avoiding disassembling the working unit and shutting down the whole operation.

### Hot-swappable

Hot-swappable HDD/S...  
deploy software d...  
control data easily...  
working units with

## Intelligent Software

Advantech WebAccess is a 100% web-based SCADA (Supervisory Control And Data Acquisition) software and it acts as an IIoT Platform providing open interfaces for partners to develop IoT applications for different vertical markets. In addition to traditional SCADA functions, WebAccess has an intelligent dashboard, to provide users with cross-platform, cross-browser data analysis and user interface using HTML5 technology. As well as the built-in widgets, WebAccess also provides Widget Builder to allow customers to build their own.

### WebAccess/SCADA

### WebAccess/HMI

WebAccess/HMI Designer is powerful yet intuitive software to create total solutions for HMI (Human Machine Interface) products. WebAccess/HMI Designer is proven in many application fields and is an easily integrated development tool. WebAccess/HMI Runtime, a part of WebAccess/HMI, guarantees reliability and performance of open platform because of the minimum system overhead, high communication data rates, sub-second screen switching, and 24/7 operation.

## Remote Device Management

WISE-Pass/RMM is an innovative remote management and cloud-based software preloaded in all Advantech embedded solutions, allowing the efficient and centralized remote monitoring and management of embedded devices in real-time, device health status, system configuration, system protection, and recovery & backup. WISE-Pass/RMM targets the needs of creating a more intelligent and interconnected embedded computing solution.

### WISE-PaaS/RMM

## Versatile Mounting with Easy Installation

### DIN-Rail Mount

UNO-1000 series can be painlessly installed on the rail with the sophisticated din-rail kit at the rear and R-angle design at the front.

### Wall Mount

Easy pull-out operation is extremely convenient that advantage is suitable for all but the heavier installations.

### Book Mount

The UNO-3300 offers an open and universal automation solution, saves space and allows quick installation in a control cabinet.

### Enclosure Mount

The UNO-3400 series are designed for easier and quick installation in control cabinets. As UNO-3400 which has the Placing-and-Click snap connector which has further considered users' activity and then simplifies the installation procedures.

### Portable Storage

SD let operators data or collect y when maintaining out interruptions.

# Selection Guide

Model Name	UNO-1251G	UNO-1252G	UNO-1372G	UNO-1483G	UNO-3283G	UNO-3382G/3384G	UNO-3483G

## Advantech Innovative Design Concept- Simple, Flexible, Reliable

As a leading provider of Industrial PC, Advantech devoted to innovation product/service development. To be the pioneer in intelligent automation technology, the *i*-concept represents the intelligent, integrated and intuitive design which covers the innovation of service model, user behavior and cutting-edge technology that opens a new era of industrial automation.

An integrated intelligent key brings simplified intuitive operation for configuring your automation panel. With a flexible software design, customized functions are easier to carry out.

A standardized modular Interface which offers flexible expansion to increase the number of applications and expand system functions through the variety of standardized modular I/Os.

A Reliable Long Distance Transmission Technology which transfers video signals and touch control over a single Ethernet cable which overcomes interference in harsh environments not only for data connections, but also for a cost effective multiple display solution.
