

The easy to clean keyboard

## Simple touch. Perfect typing.

The new Cleankeys CK4 attracts attention through its elegant design, its comfortable sense of touch and its ease of cleaning with just one wipe. As a result, the capacitive keyboard with its completely even operating surface made of glass saves the user time and money and always remains germ-free. The capacitive keys, which operate without any kind of mechanical pressure, provide a pleasant writing feel, even for people with restrictions in their hand tendons or joints. The ergonomic design of the enclosure also enables comfortable writing. We can handle specific modifications ranging from private labeling to a huge variety of country and keyboard layouts and even offer special optical design adjustments for the relevant working environment.

- Pleasant operating touch
- Cleaning without any unintentional activation of keys through the key-lock button
- Integrated touch pad
- Long-lasting quality
- Possible to operate with latex or silicone gloves
- Ergonomic design
- Integration in devices and systems
- IP65 degree of protection
- Almost unlimited individualization opportunities
- Key sensitivity and acoustic feedback levels can be individually adjusted
